## **Key Qualification Information**

Qualification number:
Operational start date
Number of units:
Total Qualification Time (TQT):
Guided learning hours (GLH):
Assessment methods:

603/0867/9 9th December 2016 1 mandatory unit

6

• Theory assessment/multiple choice question paper: 1 x 30 question paper (minimum score 20)

## **Qualsafe Awards**

Not only is Qualsafe Awards (QA) one of the largest Awarding Organisations (AO) in the UK, we are also the biggest AO for First Aid qualifications, making us an extremely trusted and recognisable name that employers look for when selecting a training provider.

We are recognised and regulated by the Office of Qualifications and Examinations Regulation (Ofqual), Qualifications Wales and the Northern Ireland Council for the Curriculum, Examinations and Assessment (CCEA). This means we can offer Centres an extensive range of qualification suites including First Aid; Prehospital Care; Health and Safety; Mental Health First Aid; Food Safety; Fire Safety; Education and Training; Manual Handling; and Health and Social Care.

With a specialist team of subject matter experts on hand to support our Centres, including A&E Consultants, doctors, paramedics, nurses, physiotherapists and specialists in the other sectors such as mental health, you can be confident that you are truly working with the industry experts.

## **Qualification overview**

This qualification forms part of the QA Health and Safety suite of qualifications. The qualification and learning outcomes are based on the recommendations of:

- · National Occupational Standards (NOS) related to health and safety in the workplace
- Recommendations of good practice outlined by the Health and Safety Executive (HSE)

This qualification is designed to provide Learners with a basic introduction to the principles of risk assessment. It will raise their awareness of risks in the workplace and introduce basic things they can do to control them.

This qualification specification provides information for Centres about the delivery of the QA Level 2 Award in Principles of Risk Assessment (RQF) and includes the unit information, assessment methods and quality assurance arrangements.

### **Objective**

The objective of the qualification is to benefit Learners by developing their understanding of: the main causes of work-related fatalities, injuries and ill health; the moral, legal and economic reasons for preventing accidents and ill health at work; key terms associated with risk assessment; the role of risk assessment in accident and ill health prevention; the legal requirements for risk assessment; a simple process for undertaking a risk assessment; occupational, environmental and human factors that can affect the level of risk from hazards at work; how to prioritise risks; and the requirements for providing information about, and records on, the results of a risk assessment.

### Intended audience

This qualification is for anyone in a work environment. While employees might not undertake risk assessments themselves they may be asked to contribute to the process and will be expected to behave in a way that protects both the health and safety of themselves and others at all times. This qualification will make them more risk-aware and improve their understanding of risk assessments.

Note: This qualification does not include writing and conducting risk assessment practice sessions. Those who will be responsible for conducting risk assessments should undertake the QA Level 3 Award in Risk Assessment (RQF).

### **Structure**

This qualification contains 1 mandatory unit with a Total Qualification Time (TQT) of 7 hours. Full details of this unit are in *Appendix 1*.

Learners must complete all assessments in the unit successfully within the registration period to achieve the qualification. The maximum period to achieve this qualification, including any referrals is 4 weeks.

TQT is the total number of hours required for a Learner to achieve this qualification. It has 2 elements:

- Guided Learning Hours (GLH) is the time a Learner is being taught and assessed under the immediate guidance of a Trainer/Assessor, which for this qualification is 6 GLH (minimum), and
- . The number of hours a Learner will reasonably be likely to spend in preparation and study, including assessment, as directed by, but not under the immediate guidance or supervision of a Trainer, e.g. precourse reading, which for this qualification is 1 hour

#### Other units

No other units can be combined to count towards the QA Level 2 Award in Principles of Risk Assessment (RQF) qualification.

### Relationship with other related qualifications

This unit may appear in other similar health and safety qualifications that contain multiple units.

### Recognition of Prior Learning (RPL)

RPL is not allowed for this qualification.

### **Entry requirements**

Learners must be at least 14 years old on the first day of the training.

There are no other formal entry requirements but to benefit from the learning we advise that Learners have a minimum of Level 1 in literacy and numeracy or equivalent.

### **Progression**

Some possible routes of progression are:

- QA Level 2 Award in Health and Safety in the Workplace (RQF)
- QA Level 2 Award in Principles of COSHH (RQF)
- QA Level 2 Award in Working at Height (RQF)
- QA Level 3 Award in Health and Safety in the Workplace (RQF)
- QA Level 3 Award in Risk Assessment (RQF)
- QA Level 3 Award in Health and Safety in the Workplace (RQF)

### Requalification requirements

We recommend you refresh your training every 3 years.

# Qualification approval requirements

Qualsafe Awards requires the Centre:

- To have appropriate policies, systems and procedures in place
- To appoint suitable individuals from their personnel team to train, assess and quality assure their QA qualifications
- To have suitable and adequate venues, equipment and learning resources

In order to secure and maintain approval from QA, Centres need a minimum staffing requirement for each qualification suite they deliver, which for this qualification is:

One Trainer/Assessor	Responsible for the delivery and assessment of qualifications
One Internal Quality Assurer	Responsible for quality assuring the delivery, assessment and awarding of this qualification

Qualsafe Awards requires the Centre staff to read and understand QA's key policies and procedures, and to abide by their contents.

#### **Trainers**

All Trainers should have the skills, knowledge and experience to be able to teach and demonstrate the subject. Each Trainer must be approved by Qualsafe Awards and provide evidence of:

- 1. A relevant vocational qualification (see Vocational qualifications table)
- 2. A formal teaching/training qualification (see Teaching qualifications table)

Vocational qualifications		
Ofqual Regulated Level 3 or 4 Health and Safety qualification	NEBOSH Certificate in Occupational Safety and Health (or equivalent)	
NEBOSH Diploma in Occupational Safety and Health (or equivalent)	HNC/D in a relevant subject, e.g. Occupational Health or Environmental Health	
Degree or Dip HE in a relevant subject, e.g. Environmental Health and EHRB Certificate of Registration	IOSH Managing Safely Certificate (face-to-face assessments only)	
Ofqual Regulated Level 3 in Risk Assessment		

Teaching qualifications		
B.Ed, M.Ed	City and Guilds Teacher's Certificate or equivalent	
PGCE, PCET, Cert Ed	Ofqual Regulated Level 3 Award and Level 4 Certificate in Education and Training	
NVQ Level 3 in Learning and Development	PTTLS, CTTLS, DTTLS	
NVQ Level 4 in Learning and Development	Further Education Teacher's Certificate	

(If relevant qualifications or experience do not appear on this list, please provide us with details as these alternatives could be acceptable.)

Trainers are expected to keep up to date with the subject area and provide evidence of continuing professional development (CPD).

#### **Assessors**

There is no requirement for a separate Assessor when delivering this qualification. Once Trainers have been approved to deliver the qualification, they can assess Learners.

It is best practice for Trainers to hold a formal (regulated) assessing qualification or attend relevant Assessor CPD training with an Awarding Organisation (AO). However, as a minimum, Trainers must follow the principles outlined in the current *National Occupational Standards for Learning and Development: Standard* 9 – Assess *learner achievement.* Centres must be able to prove this.

### **Internal Quality Assurers**

Internal Quality Assurers (IQAs) must be vocationally competent and have a relevant vocational qualification (see *Vocational qualifications* table) **and**:

- Hold an assessing qualification and follow the principles outlined in the current National Occupational Standards for Learning and Development: Standard 11 – Internally monitor and maintain the quality of assessment (Centres must be able to prove this) or
- Hold, or be working towards, a quality assurance qualification or
- Have attended QA approved IQA training relevant to this qualification

It is best practice for IQAs to hold a formal (regulated) IQA qualification and to hold, or be working towards, a formal (regulated) teaching qualification.

Full details of the Centre's requirements for internal quality assurance are in the QA Centre Quality Assurance Guidance.

Note: IQAs cannot quality assure a course for which they were the Trainer and/or Assessor.

### Venue and equipment

Quality training involves using premises conducive to learning and it is a Centre's responsibility to make sure all venues used for training and assessment purposes are suitable and adequate – whether these are hired or in-house training rooms. They must also comply with all current legislation.

In addition, it is important to use a wide range of equipment and learning resources to support delivery.

As a minimum, Centres must make sure their venues, equipment and other resources include:

Area:	Requirements:	
	The training venue must meet acceptable health and safety standards and be conducive to learning, with sufficient:	
Training venue	Size, floor surfaces, seating, writing surfaces, toilet facilities, ventilation, lighting, heating, access, exits, cleanliness, absence of distracting noise.	
	The theory assessment space should allow Learners to sit at least 1 metre apart to prevent collusion.	
Audio visual (AV) equipment and training aids	Sufficient AV equipment and training aids to facilitate learning using varying teaching methods.	
Learning materials	Provide Learners with clear and accurate reference books/handouts covering the topics included in the qualification.	

Note: Learners should sit at least 1 metre apart to prevent collusion during the theory/multiple choice question paper assessment.

5

## Course/Centre administration

### **Registering Learners**

Register Learners with Qualsafe Awards in accordance with the guidance in the QA Centre Handbook.

#### Certification

After a Learner has completed an assessment, unit or qualification, whether they have passed or not, Centres must enter the details and assessment results on the Customer Portal at: www.qualsafeawards.org

Centres will be given login details and guidance on using the Customer Portal when they are approved to deliver a QA qualification.

The Learner receives a certificate on achieving this qualification.

The certificate date is the date the Learner achieves the final unit.

QA have developed a verification tool that means the validity of every certificate can be verified online. This verification tool can be found on the QA website.

# Delivery and support

### Learner to Trainer ratio

To maintain the quality of training and assessment, make sure the class ratio is no more than 16 Learners to 1 Trainer for face-to-face courses. The assessment space should allow Learners to sit at least 1 metre apart to prevent collusion during the theory/multiple choice question paper assessment. Never allow more Learners on the course than you can cater for during the assessment.

While this ratio of 16 Learners to 1 Trainer for face-to-face courses is strongly recommended for the QA Level 2 Award in Principles of Risk Assessment (RQF) qualification, Centres may apply to QA to extend this ratio to 24 Learners to 1 Trainer if there are no practical assessments/skills tests. You must demonstrate that:

- Learners will not be disadvantaged
- The Trainer is experienced in this subject area with a low Trainer risk rating
- The venue has sufficient assessment space to allow Learners to sit at least 1 metre apart (to prevent collusion during the multiple choice question paper assessment)

All requests **must be approved** by Qualsafe Awards **before** any increase in Trainer/Learner ratio.

This qualification may be delivered and/or assessed digitally through Qualsafe at Home. To maintain the quality of training and assessment for remote/online courses, make sure the class ratio is no more than 8 Learners to 1 Trainer. The assessment session must be invigilated 'live' via an appropriate video conferencing facility. Learners must meet all the technical, equipment and invigilation requirements to sit the theory/multiple choice assessment via the QA e-Assessment platform.

Note: You should never allow more Learners on the course than you can cater for during the assessment.

### Delivery plan

Qualsafe Awards provides Centres with a complimentary course programme and detailed lesson plans, which are carefully designed to meet the objective of this qualification and the needs of Learners, making sure Learners are adequately prepared for the assessments.

7

Centres not using QA lesson plans, which are created and provided free, must submit their own delivery plan and have it approved by us **before** delivering this qualification. Note: Charges may apply. The delivery plan should:

- Include a course timetable and detailed lesson plans, clearly showing the required subjects and criteria/ learning outcomes are covered and the minimum 6 guided learning hours are met
- Be carefully designed to meet the objective of this qualification and the needs of Learners, making sure Learners are adequately prepared for the assessments
- Be emailed to: info@qualsafeawards.org

### Qualsafe at Home

This qualification can be delivered online using a virtual classroom. It can be delivered entirely online by combining remote training and an invigilated e-Assessment or Learners can complete the remote training and then attend a face-to-face assessment session. Further details about the requirements for delivering a Qualsafe at Home course are available to approved Centres in the 'Centre downloads' section of their Centre portal. All Centres must seek approval for remote training and/or e-Assessment by completing the *Qualsafe at Home Centre Application*. All Centre staff involved in the remote delivery and/or assessment for this qualification must read and understand all guidance and requirements in advance of delivery.

### Learning materials

Centres must provide each Learner with suitable learning materials that cover the lesson plans and learning outcomes/assessment criteria for this qualification. These <u>must be approved</u> by Qualsafe Awards prior to use.

### **Ongoing support**

Qualsafe Awards Centres should provide appropriate levels of support to Learners throughout the qualification. The purpose of the support is to:

- Assess knowledge and competence in relation to learning outcomes and the detailed assessment criteria of the unit within the qualification, see *Appendix 1*
- · Give Learners feedback on their progress and how they might be able to improve

## **Assessment**

#### **Methods**

Qualsafe Awards has devised externally set, internally marked assessment tools for face-to-face assessments to make sure Learners are assessed against the required knowledge, skills and understanding, as detailed in the learning outcomes and assessment criteria shown in *Appendix 1*. Centres should download all assessment papers from the Customer Portal in advance of the course. For each unit there are:

 Theory assessment/multiple choice question papers – there is 1 paper per unit for each Learner and Learners should answer all the questions under 'examination' conditions, see QA Multiple Choice Question Paper Guidelines. The maximum time allowed is 45 minutes. The minimum mark is 20 out of 30 to be considered for an overall 'Pass'

Note: Centres should download all assessment papers from the Customer Portal in advance of the course.

Alternatively, Learners may complete an externally set, externally marked invigilated e-Assessment. The time allowed, number of questions and minimum mark requirements are the same as the face-to-face assessment.

#### Access to assessment

Qualsafe Awards is committed to equality when designing the assessments for this qualification. Centres can make sure they do not unfairly exclude the assessment needs of a particular Learner by following the QA *Access to Assessment Policy* to determine whether it is appropriate to make a:

- Reasonable adjustment or
- Special consideration

When using the QA e-Assessment platform, Centres can apply additional time to a multiple-choice assessment for specific Learners who require a reasonable adjustment. When a reasonable adjustment is made or requested, e.g. written or theory assessment delivered verbally, Centres must complete a Reasonable Adjustment Form and send it to QA with any relevant supporting evidence. Centres should retain a copy of this form for their own records.

Learners may be eligible for special consideration if they have been affected by adverse circumstances beyond their control. A Special Consideration Request Form should be completed and sent to QA for consideration along with supporting evidence prior to implementation. Centres should retain a copy of this form for their own records.

Note: If you have any suggestions for improvements, please let us know.

Learners should be informed about Centre's and QA's appeals procedures and how they can access these.

### Assessment language

Assessment in British Sign Language (BSL) may be permitted for this qualification for the purpose of a Reasonable Adjustment. See QA *Access to Assessment Policy*.

Assessment in languages other than English may be permitted. However, the certificate issued could only be used to support a role in the workplace as long as proficiency in English is not required for the role supported by this qualification. See QA *Language Policy*.

Prior approval from QA is required before any assessment is delivered through BSL or a language other than English. Any request received will be considered in terms of viability and there may be charges depending on the work required to meet the request, e.g. translating assessment papers.

If a Learner passes the assessment process in another language or through BSL, their certificate will show extra information, including the language of assessment and if required, confirmation of the context in which the certificate can be used.

## Quality assurance

### Centre internal quality assurance

The Centre is required to sample a reasonable amount of assessments as part of the quality assurance of the qualification. This standardisation of assessment across Learners and Trainers is to make sure there is fairness and consistency in assessment practices. The arrangements for this should be included in the Centre's approved internal quality assurance policy.

Centres must retain all Learner documents and records for a period of 3 years and make sure these are available for review by Qualsafe Awards or our representatives, e.g. External Quality Assurers (EQAs), on request.

### Qualsafe Awards external quality assurance

Qualsafe Awards operates a system of ongoing monitoring, support and feedback for approved Centres across the United Kingdom.

QA employs a risk based model to decide the frequency of EQA activity.

Further details of the Qualsafe Awards' external quality assurance programme are available in the QA Centre Quality Assurance Guidance.

# Appendix 1 – Qualification unit

The QA Level 2 Award in Principles of Risk Assessment (RQF) has 1 unit that Learners are required to complete in order to achieve the qualification.

Title:	The Principles of Risk Assessment	
GLH:	6	
Level:	2	
Learning outcomes The Learner will:	Assessment criteria The Learner can:	Indicative content
Understand why risk assessments are necessary for maintaining and improving standards of health and safety at work	1.1 State the main causes of work-related fatalities, injuries and ill health	<ul> <li>Common causes of fatal injuries, e.g. being struck by a moving object</li> <li>Common causes of major injuries, e.g. manual handling</li> <li>Common causes of accidents, e.g. faulty machinery, entrapment</li> <li>Most common cause of fatalities – working from height</li> <li>Most common cause of major injuries – slips, trips and falls</li> <li>Illnesses caused by workplace practices, e.g. eye strain</li> <li>Most common type of work-related ill health – stress</li> </ul>
	1.2 Identify the moral, legal and economic reasons for preventing accidents and ill health at work	<ul> <li>Moral reasons for preventing accidents and ill health at work, e.g. prevent death and injury</li> <li>Legal reasons for preventing accidents and ill health at work, e.g. prosecution, compensation claims</li> <li>Economic reasons for preventing accidents and ill health at work, e.g. loss of business</li> </ul>
	<ul> <li>1.3 Recognise the definitions of key terms associated with risk assessment in the context of health and safety at work including: <ul> <li>accident</li> <li>near miss</li> <li>accident triangle</li> <li>hazard</li> <li>risk</li> <li>risk assessment</li> <li>risk control hierarchy</li> <li>suitable and sufficient</li> <li>competence</li> </ul> </li> </ul>	Definition of:  accident  near miss  accident triangle  hazard  risk  risk assessment  risk control hierarchy including order of preference of controls  suitable and sufficient including definition of reasonably practicable  competence
	1.4 Identify the role of risk assessment in accident and ill health prevention	<ul> <li>Role of risk assessment in preventing accidents and ill health, e.g. helps identify hazards, investigates if current control measures are adequate etc.</li> <li>Helps comply with Health and Safety at Work etc. Act (1974)</li> </ul>

L2-PRA-QS-V6 October 2021 Qualsafe Awards. All rights reserved

2. Understand the principles of risk assessment	2.1 Recognise the legal requirements for risk assessment	<ul> <li>Risk assessment requirements of The Management of Health and Safety at Work Regulations (1999), e.g. conduct suitable and sufficient risk assessments</li> <li>Health and Safety at Work etc. Act (1974) and its risk assessment requirements</li> <li>Activities that have additional regulations, e.g. manual handling, working at height</li> <li>Employer's duties under health and safety law, e.g. provide adequate training, provide information about risk assessments</li> <li>Employee's duties under health and safety law, e.g. co-operate with their employers on health and safety matters</li> <li>Law enforcement authorities – The Health and Safety Executive (HSE) and the Local Authority</li> <li>Powers of enforcement officers, e.g. serving notices</li> </ul>
	2.2 Identify a simple process for undertaking a risk assessment	<ul> <li>5 steps to risk assessment</li> <li>o Step 1 – Identify the hazards</li> <li>o Step 2 – Decide who might be harmed and how</li> <li>o Step 3 – Evaluate the risk and decide on precautions</li> <li>o Step 4 – Record the finding and implement them</li> <li>o Step 5 – Review the assessment and update if necessary</li> <li>Groups of people that may need specific risk assessments, e.g. pregnant women</li> <li>When risk assessment should be reviewed, e.g. when a work process changes</li> </ul>
	2.3 Recognise examples of occupational, environmental and human factors that can affect the level of risk from hazards at work	<ul> <li>Define and give examples of occupational factors, e.g. vibration white finger caused by actual work completed</li> <li>Define and give examples of environmental factors, e.g. heat exhaustion from working in a hot bakery</li> <li>Define and give examples of human factors, e.g. injury caused by carelessness of employees</li> </ul>
	2.4 Identify a method that can be used to prioritise risks	<ul> <li>Risk matrices and how they work, e.g. numerical matrix</li> <li>Factors used to prioritise the level of risk</li> <li>Prioritising risks, e.g. risks with the highest score get priority</li> </ul>
	Identify the requirements for providing information about, and records on, the results of a risk assessment	<ul> <li>Employer requirements to provide risk assessment information, e.g. provide employees with information on control measures implemented</li> <li>Consultation with employees during risk assessment process and when risk assessments are updated</li> </ul>

Note: Full and detailed qualification content is available to approved Centres in the form of lesson plans which are provided free of charge.

12
